

Technical Requirements

FaRe Musica Ensemble

Group

The ensemble is composed of 12 –15 persons; we perform with amplification and our own sound technique. The duration of a performance varies from 30 minutes to 1 hour.

Requirements

The concert should not be performed in big churches or other spacious rooms. It is ideal for auditoriums, theatres and other rooms with a reasonably dry acoustics.

The ensemble can also perform outside.

Sound

For an additional € 250 we deliver and install our comprehensive sound system to amplify our sound technique. The equipment needs 500 Watt and is designed for small and medium-sized rooms (for 100 – 150 spectators).

Lights

Where possible (in theatres, etc.) we perform in flat light (necessary colours: amber, orange, blue, green, red, purple). In any case, overly strong lighting is to be avoided.

Otherwise side-spotlights can do, high enough not to disturb the musicians.

Neon lights are to be avoided.

Stage Area

6 meters wide and 4 meters deep.

Stage Set-up, Sound Check and Rehearsal

3 hours

Dismantling of stage

1.30 hour

Miscellaneous

Since a drum set will be used the flooring needs to be considered.
